

DIGITAL ACOUSTICS

IP7 Products for Paging Applications

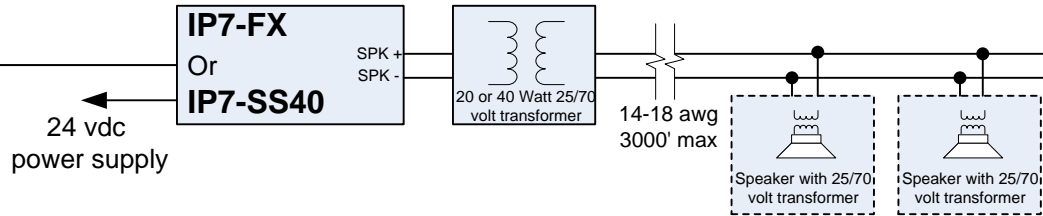

CONNECTION TYPE

A

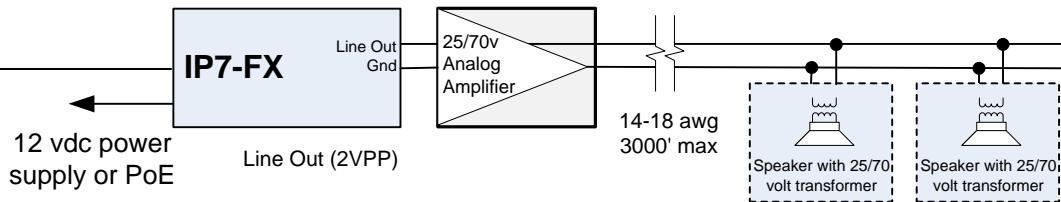

**Single Speaker or Horn less than 200'
25 or 40 Watts**

B

Multiple speakers up to a total of 18 or 28 watts

C

Multiple speakers and horns, wattage is analog amp dependant

Notes

- The IP7-FX is capable of producing 25 Watts when powered by 24VDC
- When using transformers, the IP7's wattage is reduced by approximately 30 percent
- For additional information on connecting multiple speakers to an IP7 audio module, refer to the Hardware Reference Manual for the specific device
