P/N: SW-TMF-EO

TalkMaster™ FOCUS

Enterprise Operator

Powerful Windows™ software for managing your IP audio systems.

Description:

TalkMaster™ FOCUS is the industry-leading platform for managing IP audio endpoints. IP7 intercoms, speakers, amplifiers, horns, and zone controllers can be connected over local and wide-area networks.

TalkMaster™ Enterprise Operator (SW-TMF-EO)

Adding TalkMaster Operator licenses unlocks the ability for multiple Operators to manage IP7 Audio Endpoints for intercom, paging and monitoring functionality. Each operator can be assigned different levels of priority and authority so responsibilities can be spread out and managed across your local and wide-area environments.

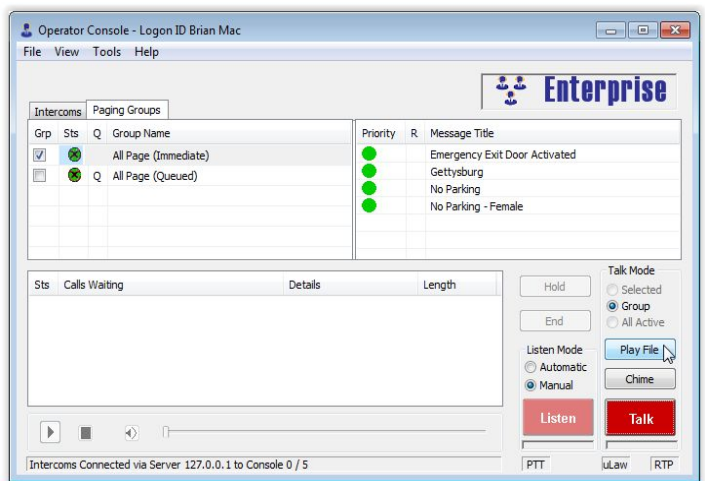

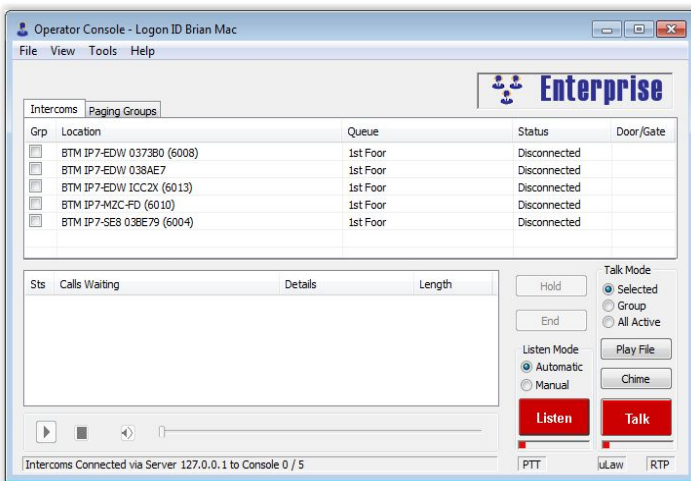

Features:

- Multiple Operator login
- Answer/Initiate 2-way Intercom Calls
- Live/Queued Paging Announcements
- Pre-recorded Paging Announcements
- Listen-In to a group of IP7 Endpoints
- IP7 Endpoint status monitoring
- Supports Fail Forward™ (redundant server backup)

Enterprise Operator is mission critical & operator friendly. SW-TMF-EO can be found in:

- Education (K-12 & Higher Ed)
- Transportation & Parking
- Military & Government
- Industrial & Manufacturing

Screenshots:

Minimum System Requirements:

- Windows 8 or greater
- 4GB Ram
- Intel Core I3 Gen 6 CPU equivalent or higher
- 200MB hard drive space
- Audio card with Microphone and Speaker
